Fresh Money Deployment Plan (SIP & Lumpsum)

1. Deployment Strategy

Disciplined capital allocation eliminating market-timing risk. Lumpsum (Rs 200,000) staged via 6-month STP from liquid fund (~6.8% yield) into equity sleeves; debt sleeve deployed Day 1 for immediate stability floor. Monthly SIP (Rs 99,995) starts immediately across four direct funds matching 85/15 SAA target. No idle cash drag, no lump-sum entry risk.

2. Institutional Lumpsum Deployment Blueprint (Budget: Rs 200,000)

4. Discipline & Rebalancing Rules

- **STP Execution**: Initiate all three equity STPs same day; liquid fund = parking vehicle only.
- **SIP Auto-Debit**: Mandate date 1st-5th monthly; ensure folio mapping matches existing direct folios.
- **Quarterly Review**: Check equity/debt drift >5% from 85/15 -> rebalance via fresh flows only (no redemption).
- **Annual Step-Up**: Increase SIP 10% YoY; allocate increment pro-rata to maintain sleeve weights.
- **Tax Harvest**: FY-end review — book losses in taxable lots to offset gains; never churn for alpha alone.
- **Exit Load Guard**: No redemption <365 days in equity funds; debt fund exit load nil after 15 days.
